SUMMARY

Full Stack Developer with 4+ years of experience building scalable fintech platforms, payment systems, and digital lending solutions. Specialized in designing high-performance backend services with NestJS, Node.js, PostgreSQL, and AWS, delivering secure APIs that handle thousands of daily financial transactions across lending, KYC, and credit workflows.

CORE STRENGTHS

Scalable Backend Systems

REST API Design

System Design

PostgreSQL Optimization

Redis Caching

Payment Integrations

Event-Driven Architecture

AWS Cloud

Microservices

PROFESSIONAL EXPERIENCE

TezCredit (Finagle Financial Pvt Ltd) — Full Stack Developer Dec 2025 – Present

Node.js · NestJS · React · TypeScript · PostgreSQL · AWS

- Designed and developed loan origination, customer onboarding, KYC, credit-assessment, and disbursement workflows for a digital lending platform, exposing secure NestJS REST APIs integrated with credit bureaus and payment partners.
- Implemented idempotency for money-movement APIs across **25K+ loan disbursals**, preventing duplicate transactions and ensuring reliable fund transfers.
- Designed field-level encryption for sensitive customer PII using **AWS KMS**-backed data keys, securing customer records at rest across the platform.
- Designed a lead-management system handling **10K+ leads/day**, powering customer acquisition, lead attribution, and onboarding workflows.
- Optimized MIS reporting with tuned PostgreSQL queries and caching, reducing report-generation time by **20%** and improving data accuracy for marketing and support teams.
- Developed CKYC (Central KYC) search and download to streamline customer verification and regulatory compliance.
- Diagnosed and resolved **20+ production bugs** across the full stack, improving platform stability and reducing recurring incidents.
- Developed responsive React interfaces for loan-application, KYC, and repayment flows, improving usability and reducing drop-offs.

FiftyFive Technologies — Software Engineer Jul 2022 – Nov 2025

Node.js · React · Express.js · PostgreSQL · Stripe · Redis · Azure

- Built and maintained a high-traffic e-commerce platform for digital subscriptions, integrating **Stripe** and Nets Easy payment gateways.
- Boosted user retention by **30%** through automated subscription renewals and a voucher-based discount system.
- Integrated Redis caching, improving API response times by **40%** and reducing database query load by **30%**.
- Optimized Stripe payment pipelines, achieving a **99% transaction success rate**.
- Architected a centralized Redux store and responsive React checkout components, streamlining state management, reducing re-renders by **25%**, and lowering churn.

FunctionUp — Backend Developer Trainee Feb 2022 – Jul 2022

Node.js · Express.js · MongoDB (Mongoose) · Redis · AWS

- Engineered backend microservices with Node.js and Express.js, using MongoDB (Mongoose) for dynamic data models.
- Leveraged AWS S3 and SNS for scalable file storage and event-driven notifications.
- Enhanced backend efficiency with Redis caching, reducing average API latency by **25%**.

SKILLS

Languages	TypeScript, JavaScript, SQL
Backend	Node.js, NestJS, Express.js
Frontend	React, Next.js, HTML, CSS
Databases	PostgreSQL (Sequelize), MongoDB (Mongoose)
Cloud & DevOps	AWS (EC2, S3, SNS, KMS), Microsoft Azure, Docker, CI/CD
Architecture	REST API Design, Microservices, Event-Driven Architecture, System Design
Caching & Messaging	Redis, BullMQ
Security & Auth	JWT, OAuth2, Bcrypt, Helmet.js
Testing & Quality	Jest, Mocha, Chai, Supertest
AI	OpenAI, LangChain, LangGraph, Gemini AI
Tools	Git, GitHub, Postman, Swagger, VS Code

EDUCATION

CMR Institute of Technology, Hyderabad — B.Tech Jul 2018 – May 2022 | GPA: 7.7

NRI Junior College, Hyderabad — Class XII Jun 2016 – Mar 2018 | 96.8%
